VELCRO® brand EVAPTEX™ High Performance Fabric

VELCRO® brand EVAPTEX™ High Performance Fabric is a hook-compatible fabric optimized for outstanding breathability and superior moisture management. This patent-pending technology is ideal for applications requiring exceptional comfort and durability: leg and arm bracing, catheter straps, tracheotomy straps, helmet padding, sporting apparel, and body armor.

Product Highlights

- Patent-pending evaporation technology keeps skin dry and cool
- Soft surface next to skin provides long-lasting comfort
- Anti-microbial properties lessen odors and slow development of harmful bacteria
- Hook-compatible loop surface eases positioning and adjustability of straps, braces, and other items requiring a superior fit
